

**IMPORTANT NEW INFORMATION_UPDATED NEW ITEM
FORM with WERCSmart Assessment now AVAILABLE
ON CVSSUPPLIERS.com**

ATTENTION SUPPLIERS

**The UPDATED NEW ITEM FORM with
WERCSmart ASSESSMENT is now AVAILABLE
on CVSSUPPLIERS.com**

As previously communicated, starting **June 17, 2013**, all New Item Forms being submitted to CVS/pharmacy **MUST** include the completed WERCSmart Assessment Form.

Go to CVSSUPPLIERS.com **today** for the latest version of the New Item Form. Without a completed assessment, your New Item Form will be referred back to you for required completion causing potential delays in the New Item Setup Process.

RIGHT NOW is the best time to reach out to the CVSWERCSmart Team at wercsinfo@cvscaremark.com with any questions regarding the changes to the New Item Setup Process!

HELPFUL TIPS:

KNOW YOUR ITEMS: Being able to accurately answer the (4) four items on the questionnaire is a **must**.

BE PREPARED: Our previous communications provided resources for webinar training sessions and a Product Registration Checklist to help you when compiling information on your product **prior** to performing the product registration process. **Use them!** These resources can also be found on cvssuppliers.com; click here: [Regulatory Compliance](#).

If your company has never registered a product with WERCSmart, we strongly suggest coordinating with all applicable departments to ensure going forward, the colleague filling out the New Item Form has the support they need.

GIVE YOURSELF TIME: Compiling the information needed for the registration process can take a good deal of time, but the actual item entry process of your information into WERCSmart can be completed in 30-45 minutes (or greater based on the complexity of your products formulation). The WERCSmart Product Assessment performed by Wercs Professional Services can take 2 to 4 days once all item information has been entered.

LAST RESORT: The Petition Process will be outlined in greater detail for those who contact us indicating they have a product that meets the criteria, yet they cannot get the information necessary for completing the Product Registration Process with WERCSmart. The Petition Application Process is costly, and should be a last resort.
