

SUPPLIER INTRODUCTION

OrderStream™

CVS and CommerceHub Order Processing Solution

CVS has partnered with CommerceHub, a supply chain integration company, to provide services that simplify the electronic data exchange between CVS and our drop-ship partners. This process allows for seamless order processing and fulfillment confirmation regardless of your technical resources and capabilities.

CommerceHub makes it easy to communicate with CVS and meet our requirements. The CommerceHub service helps us eliminate errors, expensive manual processes and lengthy systems integrations.

To provide CVS with complete order processing visibility you need to establish a direct connection to the CommerceHub network. CommerceHub supports many connectivity options that enable your company to be 100% compliant with CVS data requirements. The CommerceHub Partner Setup team will assist you to select and implement the best solution for your company.

SOLUTION OPTIONS

Solution One: Web-based Solution – \$750 setup, \$65/month, \$0.50 per order
Simple and fast to get up and running, ideal for low to moderate volume

Supplier uses the CommerceHub OrderStream web app to be 100% compliant with the CVS drop-shipping program. OrderStream allows you to print the appropriate CVS branded packing slips and provides you with real-time visibility to order status eliminating time-consuming reconciliation of disputed orders. Powerful queries and reporting functionality provide instant access to the status of specific orders and shipments.

Solution Two: Integrated Solution – \$1,750 setup, \$65/month, \$0.50 per order for higher volume automated communication

In addition to web-based solutions you have the option of becoming an integrated supplier. An integrated supplier can exchange data, such as purchase orders and shipment confirmations in pre-defined file formats such as EDI, XML, Delimited and connectivity options such as FTP, VAN, AS2, and Web Upload/Download.

Optional Services: AS2 communication option – add \$500 setup and \$20/month
 VAN communication option – add \$0.06/kilo-character of data transmitted

Key Features of OrderStream

- Receive CVS orders in the format you choose
- Track order status, history and archives
- Send compliant confirmations and inventory updates
- Print branded packing slips
- Robust reporting

NEXT STEPS

Once you are an approved supplier for CVS, the CVS team will provide CommerceHub's Partner Setup staff with your contact information. The CommerceHub team will make contact with you to determine the connection options that best meet your needs.
