

Scheduling trailers with freight for DCs with multiple delivery addresses:

- 1) Each CVS distribution location will need a separate appointment request submitted through the CVS scheduling system
- 2) Create the appointment request for the first stop with all Purchase orders that will deliver to first stop on request form.
- 3) Add a comment in the bottom right hand column on online detail form similar to comment in picture below noting that it is stop 1 of a 2 stop load.
- 4) Submit the appointment request for the first stop.

Always make sure to submit both requests at approximately the same time so the DC will be able to review and select the most appropriate appointment date/time for each stop.
