| Display Vehicle: | PDQ - Endcap |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | $10^{\prime \prime}$ |
| Display Width: | $26^{\prime \prime}$ |
| Display Depth: | $10^{\prime \prime}$ |
|  |  |
| Base Height: | $\mathrm{n} / \mathrm{a}$ |
| Base Width: | $\mathrm{n} / \mathrm{a}$ |
| Base Depth: | $\mathrm{n} / \mathrm{a}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

Additional Comments:

- Dimensions listed above are for PDQ Trays meant for an endcap program. PDQ width must be $26^{\prime \prime}$ wide
- PDQ guidelines for non endcap programs are on the pages to follow
- Updated April 2015

| Display Vehicle: | PDQ - Gondola |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | Specified by CM |
| Display Width: | Specified by CM |
| Display Depth: | $10^{\prime \prime}$ |
|  |  |
| Base Height: | $\mathrm{n} / \mathrm{a}$ |
| Base Width: | $\mathrm{n} / \mathrm{a}$ |
| Base Depth: | $\mathrm{n} / \mathrm{a}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

- PDQs should be sized for the product that sits within it unless specified by CM and not exceed the dimensions stated above
- If developing PDQs for a 4' section, the total width of the PDQs for 1 shelf within the section must total $48^{\prime \prime}$

Example: If needing 2 PDQs per shelf, each PDQ should measure 24 " wide.
DO NOT USE THE ENDCAP PDQ STANDARD OF 26" WIDE

- Height and width varies. Specific height and width must be validated by CM/RISD based on application
- Reference the Seasonal Style Guide (if applicable) for front lip height requirements

| Display Vehicle: | PDQ - Top of Checkout |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | $14^{\prime \prime}$ |
| Display Width: | $10^{\prime \prime}$ |
| Display Depth: | $10^{\prime \prime}$ |
|  |  |
| Base Height: | $\mathrm{n} / \mathrm{a}$ |
| Base Width: | $\mathrm{n} / \mathrm{a}$ |
| Base Depth: | $\mathrm{n} / \mathrm{a}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

- PDQs should be sized for the product that sits within it unless specified by CM and not exceed the dimensions stated above
- Height of display including the header card must not exceed $14^{\prime \prime}$
- Updated April 2015

| Display Vehicle: | Endcap - QSE 1-sided |
| ---: | :---: |
|  | w/out Side Panels |
| Dimensions: |  |
| Display Height: | $54^{\prime \prime}$ |
| Display Width: | $26^{\prime \prime}$ |
| Display Depth: | $13^{\prime \prime}$ |
|  |  |
| Base Height: | $\mathrm{n} / \mathrm{a}$ |
| Base Width: | $\mathrm{n} / \mathrm{a}$ |
| Base Depth: | $\mathrm{n} / \mathrm{a}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

- QSE sits on the base deck of a CVS endcap fixture
- QSE height cannot exceed 54" due to California \& West Coast Seismic Building Code Regulations
- QSE must include a tethering system built-in to securely attach to endcap fixture. Example: large zip-tie or spring tie (see photo inset)
- Updated April 2015

| Display Vehicle: | Power Wing |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | Exactly 41" |
| Display Width: | $14^{\prime \prime}$ |
| Display Depth: | $6^{\prime \prime}$ |
|  |  |
| Base Height: | $\mathrm{n} / \mathrm{a}$ |
| Base Width: | $\mathrm{n} / \mathrm{a}$ |
| Base Depth: | $\mathrm{n} / \mathrm{a}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

- Header Cards are not necessary as the Price Conveyance Sign Holder is a permanent fixture and cannot be removed
- Preprinted logos and graphics along the sides of the power wing are not necessary as the CVS fixture the power wing attaches to obstructs any view
- "S" hooks used for attachment must be slotted into the back of the display and provided by supplier (see photo inset)

| Display Vehicle: | Power Wing |
| ---: | :---: |
|  | Floor Stand w/in PW Fixture |
| Dimensions: |  |
| Display Height: | Exactly $53^{\prime \prime}$ |
| Display Width: | $14^{\prime \prime}$ |
| Display Depth: | $6^{\prime \prime}$ |
|  |  |
| Base Height: | varies |
| Base Width: | $14^{\prime \prime}$ |
| Base Depth: | $6^{\prime \prime}$ |
|  |  |
| Weight: | not to exceed 50 Ibs |

## Additional Comments:

- Display height must be exactly $53^{\prime \prime}$
- A header card is not necessary as the Price Conveyance Sign Holder is a permanent fixture and cannot be removed
- Preprinted logos and graphics along the sides of the power wing is not necessary as the CVS fixture the power wing attaches to will obstruct any view
- For stability purposes, " S " hooks used for attachment must be punched into the back of the display and provided by supplier (see photo inset)
- Updated April 2015

| Display Vehicle: | Power Wing |
| ---: | :---: |
|  | Floor Stand w/out PW Fixture |
| Dimensions: |  |
| Display Height: | $593 / /^{\prime \prime}$ |
| Display Width: | $16^{\prime \prime}$ |
| Display Depth: | $6^{\prime \prime}$ |
|  |  |
| Base Height: | varies |
| Base Width: | $16^{\prime \prime}$ |
| Base Depth: | $6^{\prime \prime}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

- Using this display type must be preapproved through RISD and authorized by CM
- Display height cannot exceed 59 3/4" due to California \& West Coast Seismic Building Code Regulations
- Display dimensions listed above are exact and cannot be modified
- Updated April 2015

| Display Vehicle: | Floor Display |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | $593 / 4^{\prime \prime}$ |
| Display Width: | $14^{\prime \prime}$ |
| Display Depth: | $14^{\prime \prime}$ |
|  |  |
| Base Height: | varies |
| Base Width: | $14^{\prime \prime}$ |
| Base Depth: | $14^{\prime \prime}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

- Display depth should only be 6 " and the display base is not to exceed 14 "
- Display height cannot exceed $593 / 4$ " due to California \& West Coast Seismic Building Code Regulations
- Best Practice: Floor Stands should be made to be convertible to a power wing for merchandising flexibility. The body of the display should follow Power Wing Guidelines
- Updated April 2015

| Display Vehicle: | Floor Display |
| ---: | :---: |
|  | Seasonal Drive Aisle Tower |
| Dimensions: |  |
| Display Height: | $54^{\prime \prime}$ |
| Display Width: | $14^{\prime \prime}$ |
| Display Depth: | $14^{\prime \prime}$ |
|  |  |
| Base Height: | varies |
| Base Width: | $14^{\prime \prime}$ |
| Base Depth: | $14^{\prime \prime}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

- Dimensions must be followed due to adherence to ADA requirements and regulations
- Dimensions listed must be inclusive of:
o Signing Toppers/Headers
o Peg Hook depth
- Optimal display design is either 2 sided or 4 sided
- If display must be 1 -sided, finished artwork must be provided on all sides
- Updated November 2018

| Display Vehicle: | Locker |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | $51 \frac{11 / 2 \prime}{}$ |
| Display Width: | $111 / 2^{\prime \prime}$ or $151 / 2^{\prime \prime}$ (see below) |
| Display Depth: | $13^{\prime \prime}$ |
|  |  |
| Base Height: | $\mathrm{n} / \mathrm{a}$ |
| Base Width: | $\mathrm{n} / \mathrm{a}$ |
| Base Depth: | $\mathrm{n} / \mathrm{a}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

- The width of a Locker is determined by the number of Lockers per 4' section and must be specified by CM
o 4 Lockers per 4 ' section use $111 / 2^{\prime \prime}$ width
o 3 Lockers per 4 ' section use $151 / 2^{\prime \prime}$ width
- Lockers sit on the base deck of a CVS gondola or endcap fixture
- The top built-in headers of the display should be a consistent $3^{\prime \prime}$ in height and bottom footers $6^{\prime \prime}$ in height
- Peg Hooks must securely hold the weight of the product (either metal or heavy gauge plastic) and have a built-in front runner mechanism to attach a coding label or sign (see photo inset)
- Updated April 2015

| Display Vehicle: | Skinny Tower |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | $59^{3 / 4 \prime}$ (inc. base) |
| Display Width: | $6^{\prime \prime}$ |
| Display Depth: | $6^{\prime \prime}$ |
|  |  |
| Base Height: | $12^{\prime \prime}$ |
| Base Width: | $10^{\prime \prime}$ |
| Base Depth: | $10^{\prime \prime}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

Additional Comments:

- If merchandise is pegged, plastic peg hooks must not exceed 2 " and overall dimension of the skinny tower must not exceed 6 "
- Product must face only 1 side
- White space $1 \frac{1}{4 \prime \prime} \times 2^{\prime \prime}$ needed for price conveyance label
- Dimensions must be followed due to adherence to ADA requirements and regulations
- Updated April 2015

| Display Vehicle: | 4-Tier Wire Basket |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | $5^{\prime \prime}$ |
| Display Width: | $91 / 2^{\prime \prime}$ diameter |
| Display Depth: | $91 / 2^{\prime \prime}$ diameter |
|  |  |
| Base Height: | $\mathrm{n} / \mathrm{a}$ |
| Base Width: | $\mathrm{n} / \mathrm{a}$ |
| Base Depth: | $\mathrm{n} / \mathrm{a}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

- 4-Tier Wire Bins are permanent Off Shelf displays in select stores
- Diameter of wire basket is 10 "
- Corrugate developed to sit inside basket must have a diameter of $91 / 2^{\prime \prime}$
- Updated August 2020

| Display Vehicle: | Clipstrip |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | $30^{\prime \prime}$ |
| Display Width: | $6^{\prime \prime}$ |
| Display Depth: | $11 / 2^{\prime \prime}$ |
|  |  |
| Base Height: | $\mathrm{n} / \mathrm{a}$ |
| Base Width: | $\mathrm{n} / \mathrm{a}$ |
| Base Depth: | $\mathrm{n} / \mathrm{a}$ |
|  |  |
| Weight: | see below |

## Additional Comments:

- The weight of the product must securely stay on the clipstrip. The supplier is responsible for using an appropriately engineered clipstrip
- Clipstrips are meant to hang from a power wing dress kit. The recommended " S " hook must be supplied by supplier (see photo inset)
- Updated April 2015

| Display Vehicle: | Miniwing |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | $45^{\prime \prime}$ |
| Display Width: | $6^{\prime \prime}$ |
| Display Depth: | $4^{\prime \prime}$ |
|  |  |
| Base Height: | $\mathrm{n} / \mathrm{a}$ |
| Base Width: | $\mathrm{n} / \mathrm{a}$ |
| Base Depth: | $\mathrm{n} / \mathrm{a}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

- Miniwings are meant to hang from a power wing dress kit. The recommended U-clip must be provided by supplier (see photo inset)
- U-clip must have an inside (not outside) dimension of 1 " in order to attach to power wing
- U-clip depicted available: o Import(China) -

Bob Su +86 13808523789

## o Domestic -

FFR Merchandising, Inc.
1-800-422-2547
Item \#8307711301 PW Clip Square Edge

- Miniwing must be slotted at $3^{\prime \prime}$ from top so when attached to the Power Wing Dress Kit, the top of the miniwing sits flush with the top of the dress kit (see photo inset)
- Updated November 2016

| Display Vehicle: | PDQ - Elevated Beauty EC |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | $2^{\prime \prime}$ tray |
| Display Width: | $233 / 4^{\prime \prime}$ |
| Display Depth: | $10^{\prime \prime}$ |
|  |  |
| Base Height: | $\mathrm{n} / \mathrm{a}$ |
| Base Width: | $\mathrm{n} / \mathrm{a}$ |
| Base Depth: | $\mathrm{n} / \mathrm{a}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

Endcap

- The 4 PDQs of product must fit within 39 " of merchandising space top to bottom
o Must consider $13 / 4^{\prime \prime}$ thickness of shelves and finger space for shopability
- 3 adjustable shelves may adjust, cannot be removed from display

Power Wing (2 sides)

- Merchandising space:
o $81 / 2^{\prime \prime}$ wide
o 36 " high
O $41 / 2^{\prime \prime}$ deep
- 4 adjustable shelves ( $13 / 4^{\prime \prime}$ thick) may adjust, cannot be removed from display
- Space also used for graphic panel (depicted on left side)
- Updated February 2018

| Display Vehicle: | Cosmetic Tower |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | $54^{\prime \prime}$ |
| Display Width: | $24^{\prime \prime}$ |
| Display Depth: | $4^{\prime \prime}$ |
|  |  |
| Base Height: | $6^{\prime \prime}$ |
| Base Width: | $24^{\prime \prime}$ |
| Base Depth: | $13^{\prime \prime}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

- Header to be $3^{\prime \prime}$ tall
- Body of display to be $45^{\prime \prime}$ tall
- Updated April 2015

| Display Vehicle: | SSCU Cosmetic Prepacks |
| ---: | :---: |
|  |  |
| Dimensions: |  |
| Display Height: | $8^{\prime \prime}$ (cannot exceed $10^{\prime \prime}$ <br> w/product) |
| Display Width: | $237 / 8^{\prime \prime}$ |
| Display Depth: | $12^{\prime \prime}$ |
|  |  |
| Product Space: | $171 / 2^{\prime \prime} \times 111 / 4^{\prime \prime}$ |
| Graphic Panel: | $33 / 4^{\prime \prime} \times 113 / 4^{\prime \prime}$ |
|  |  |
| Weight: | not to exceed 50 lbs |

## Additional Comments:

Structure

- Corrugate
- $5 / 8^{\prime \prime}$ white border around angled portion

## Wells

- Must be black
- Structural design may vary across products

## Graphics

- Limited to designated graphic panel
- Product education is not permitted on front tip-on or sides of display

Branding

- Brand logo positioned horizontally and right justified on front tip-on $1 / 2^{\prime \prime}$ from right side
- Logos printed in $100 \%$ black
- Max width 4 1/2"

Fonts

- Reference specific guidelines from Beauty Team
- Updated February 2018
